Relevant Experience

JavaScript Developer Intern @ Loctech IT
August, 2020 - December, 2020 || Port Harcourt, Nigeria
- Build websites using React and Node
- Project Manager of an agile team of three
- Some of my work includes: <u>KingsooERP</u>, <u>Oasis of Love</u>

Software Engineer @ CodeLab IT Projects (Remote)
February, 2020 - June, 2020 || Maryland, U.S.A
- Build websites using wordpress and convert mock-ups to functional website
- Project Manager and sometimes Scrum Master of an agile team of seven
- Some of my work includes: <u>Fragrance of Grace</u>, <u>Fragrance Equip</u>, <u>Royal Autos Rentals</u>
- Within two months, was promoted to Head of Software Engineering Team

Trained as a Project Manager so as to be able to manage my team and projects better

Web Developer @ XircomICT (Freelance)
September, 2018 – January, 2020 || Port Harcourt
- Automated employee medical request process for an engineering company
- Trained about twenty-five (25) students in web development
- Some of my work includes: <u>Joshrob Solutions Company</u>, <u>First Signal Technology</u>

Introduced web development training as another source to generate revenue in the organization

Junior Developer @ Cloud Office (Startup)
December, 2018 – April, 2019 || Port Harcourt
- Assisted the Co-Founder and Lead Developer to build ibuyall.xyz and cloudoffice.com using PHP.
- Converted mock-ups to functional website, optimized images to improve speed, rendered customer service and marketing of the products

Projects
- <u>Teamwork</u> - This is a collaboration app where users can create post and gifs and share on their profile. The UI is still in progress. **Tools**: Node, Express, MongoDB, Heroku
- <u>KingsooERP</u>- This is an ERP application I built during my internship project at Loctech. Since I can't share the main application we built for Kingsoo Company, I decided to build a demo version of the application. **Tools**: React, Node, Express, MongoDB, Netlify, Heroku

Skills

Programming Languages
HTML, CSS/SCSS, JavaScript, TypeScript, Node.js

Libraries & Frameworks
React, Express, Bootstrap, Material UI
